We import a wide, diverse and high quality range from all over the world For stunning worktops, flooring and wall cladding options And other decorative works.

# MARBLE

## M A R B L E

From the Parthenon in Greece, to the Taj Mahal in India, or the Sheikh Zayed Mosque in Abu Dhabi, Marble has always been a luxurious cultural symbol of architectural refinement.

It's extravagant beauty, which lasts for generations,

has always been a favourite medium of sculptors, architects and designers. As one of the most alluring and valuable natural stones on the planet, Marble has a rich cultural past, and has been used to distinguish some of the most awe inspiring buildings in history.

It's durability, longevity, beauty, and elegance ensure that it can transform an ordinary space into a monument for the ages.

ONYX

## ONYX

Onyx is an exotic natural stone that is all about luxury and glamour.

This exquisite stone has the unique ability to transmit light. The peculiar translucent quality of Onyx allows for a breathtaking effusive lighting arrangement.

The dazzling visual display created by back lit onyx is a particularly powerful tool for creating an unforgettable mood and ambience.

Onyx has been used in jewelry, carvings and sculptures since the times of the early homo sapiens, to the ornamentation of classic as well as modern architecture, embellishing

the grandiose facades of the Ancient Greek to Bauhaus and Brutalist architectures.
